

KRISHNA SAI RAM

SUMMARY

I'm a **MERN** stack developer. Passionate about building scalable and reliable web applications. I have a strong understanding of the MERN stack, and I am proficient in JavaScript, React, Node.js, and MongoDB. I am also familiar with other technologies such as Docker, Kubernetes, and AWS.

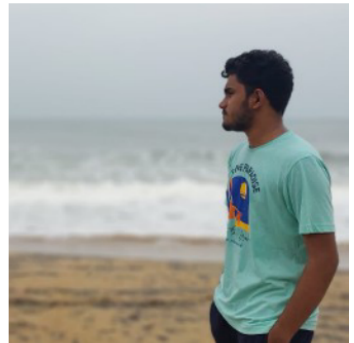

I have a strong foundation in data structures and algorithms. I am also proficient in a variety of programming languages, including Python, C, C++, and Java. I have experience with a variety of programming paradigms, including object-oriented programming, functional programming, and procedural programming. I am also a member of several online communities and forums where I discuss programming problems and get help from other programmers. I am always willing to help others and I enjoy sharing my knowledge.
